

# U-Profile Part 177

## EXTRUDED PROFILES

Movex® provides a new generation of high-performance profiles developed and produced with the most up to date technology. Experienced engineers work around the clock on more than 50 extrusion machines, perfecting almost 2.000 high-quality products of different types and sizes. Movex® profiles are produced from top-quality UHMW-PE, with the possibility of enhanced performance with the use of our super-performing materials BluLub®, Titanium White® and AS. Standard 3 m (10 ft) or 6 m (20 ft) profiles are typically shipped by common carrier. Selected items can be coiled into cartons for more convenient shipping. Products stored in coils will have the tendency to retain a certain deformation when uncoiled, therefore consistency in the profile cross section over the full length of the coil cannot be guaranteed.

Standard profiles are all made with a first-rate UHMW-PE polyethylene, a thermoplastic polymer with a variable crystalline structure with a vast range of applications. UHMW-PE is available in several colors and lengths. It's the perfect choice to reach your line performance against an attractive price.

U-PROFILE W43 Th9 GREEN UHMW L=20ft/6m

Article-Nr: P17702

## Technical features

<b>Series</b>	U-Profile
<b>Unit of measure</b>	Meter
<b>Material</b>	Plastic profile
<b>Part:</b>	P177
<b>Material &amp; color:</b>	UHMW-PE Green
<b>Supply length:</b>	6 m / 20 ft bars

Operating Temperature °C:

-40+80 °C

Height mm 9; Width mm 43
